

Endorser Kit

Ickly for Pediatric

A QR-code endorsement toolkit with zero workflow burden. Print, post, paste. No EHR integration, no dashboards, no clinician data entry.

What's inside

1. Waiting-room QR poster (8.5×11)
2. After-visit summary insert
3. Front-desk / counter card
4. Sick-season message pack (SMS, email, social)

How to use

Print in-house or send to your usual print vendor. Post the poster where families wait. Paste the AVS insert into your discharge template. Drop the message pack into your existing broadcast tool.

Personalize before printing: replace “[YOUR CLINIC NAME]” with your practice name in the assets on the following pages. Ickly ships fully personalized kits to Endorser-tier subscribers, see ickly.com/for/clinics/pricing.

Is it going around?

Community-powered pediatric health intelligence · ickly.com

After-visit summary insert

Paste into your AVS or portal message

Wondering what else is going around?

[YOUR CLINIC NAME] endorses Ickly, a community-powered early warning layer for local pediatric illness. Scan the QR code on the back of this sheet (or visit ickly.com) to see what parents in your zipcode are reporting this week, and to anonymously share what your child was diagnosed with today. It takes 20 seconds and helps other local families.
